## ANNUAL STIPEND

BEEF has been created keeping sustainability and growth in mind. Being operationalized on an Endowment Fund, only the investment proceeds are utilized for its objectives while the principle Endowment Fund is kept intact in its place. The Government takes one time

burden of allocation for setting up or enhancing the Endowment Fund and thereafter the Endowment Fund earns and gives returns for indefinite period. Moreover, application of modern financial management techniques grows the Endowment Fund and its returns to benefit more beneficiaries.

Hence, BEEF is a model organization having no regular burden on Government Ex-Chequer and utilizes its own resources to generate revenue for its objects and operations.
